Higher
Education
Challenge (HEC)
Grants Program

The program is focused on improving formal, baccalaureate or master's degree level food, agricultural, natural resources, and human sciences (FANH) education and first professional degree-level education in veterinary medicine (DVM). HEC projects provide funding to eligible applicants to help ensure a competent, qualified and diverse workforce will exist to serve the FANH sciences system. At the same time, HEC-funded projects improve the economic health and viability of communities through the development of degree programs emphasizing new and emerging employment opportunities. Finally, HEC projects address the national challenge to increase the number and diversity of students entering the FANH sciences.

The HEC projects are expected to:

- produce measurable impacts aligned with HEC program goals
- promote innovative, educational practices within the FANH sciences that improve how students learn
- include a rigorous evaluation component to assess that project outcomes are met.

Institutions must demonstrate capacity for, and a significant ongoing commitment to, the teaching of food, agricultural and human sciences generally, and to the specific need and/or discipline(s) for which a grant is requested.

Anticipated total amount is approximately \$4.5 million

Deadline) NHPRC

Publishing
Historical
Records in
Documentary
Editions

Projects may focus on broad historical movements in U.S. history, such as politics, law, social reform etc. or may be centered on the papers of major figures from American history. NHPRC encourages applications that use collections to examine the ideals behind the founding of the United States and the continual interpretation and debate over those ideals over the past 250 years. The NHPRC encourages projects to provide free public access to online editions. Projects that do not have definitive plans for digital dissemination and preservation in place at the time of application will not be considered. This grant program does not support the production of film or video documentaries.

Criteria for Publishing Historical Records in Documentary Editions:

1. The historical significance of the documents to be edited during the period of the grant. (35 percent)
2. The coherence and effectiveness of the proposed work plan, including plans for online publication (30 percent)
3. Qualifications of the project staff. (20 percent)
4. Plans for disseminating project products, including evidence of how these projects benefit, or will benefit, scholars and the public. (15 percent)

Up to \$175,000

NOTE: The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by the Association for Documentary Editing or the Modern Language Association Committee on Scholarly Editions.

NHC

National
Humanities
Center
Fellowships

The National Humanities Center offers 40 residential fellowships for advanced study in the humanities for the period September 2014 through May 2015. Applicants must have doctorate or equivalent scholarly credentials. Young scholars as well as senior scholars are encouraged to apply, but they must have a record of publication, and new Ph.D.s should be aware that the Center does not normally support the revision of a doctoral dissertation. In addition to scholars from all fields of the humanities, the Center accepts individuals from the natural and social sciences, the arts, the professions, and public life who are engaged in humanistic projects. The Center is also international and gladly accepts applications from scholars outside the United States.

Stipends are individually determined, according to need. Center seeks to provide at least half salary and covers travel expenses to and from North Carolina for Fellows and dependents.

Most of the Center's fellowships are unrestricted. Several, however, are designated for particular areas of research. These include a fellowship for a young woman in philosophy and fellowships for environmental studies, English literature, art history, Asian Studies, and theology. Applicants submit the Center's form, supported by a curriculum vitae, a 1000-word project proposal, and three letters of recommendation. A downloadable application form and instructions may be found at the Center's website. Applications and letters of recommendation must be postmarked by October 1, 2013.

10/12	Fulbright	U.S. Scholar Program	Supports activities and projects that recognize and promote the critical relationship between educational exchange and international understanding, in addition to the intellectual merit of the proposals. Applications with broad multiplier effects are particularly welcome, as are projects that are conducive to candidates sharing their experiences and knowledge with colleagues, students and, ideally, with the general public in their host country and, upon return, in the United States	https://us.fulbrightonline.org/about/competition-selection
10/12	Florida Humanities Council	Community Project Grants	Community Project grants provide support for the planning and implementation of public humanities programs and resources that meet the needs and interests of local communities. Projects may include lecture series and panel discussions, reading and discussion groups, film series, oral history projects, exhibitions, and the development of cultural resources that complement public programming.	up to \$15,000, up to 18 months To be eligible, organizations must be not-for-profit and based in Florida. Also another one on July 22 https://floridahumanities.org/what-we-do/grants/
10/13	Spencer Foundation	Conference Grants	The Conference Grant Program provides support to scholars to organize small research conferences, focused symposia, or other forms of convenings around important issues in education research. This program is intended to bring together researchers, practitioners, policymakers, and other important collaborators whose expertise, substantive knowledge and practice, theoretical insight, or methodological expertise can be engaged in ways that help to build upon and advance education research.	Up to \$50,000 Principal Investigators (PIs) and Co-PIs must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession. https://www.spencer.org/grant_types/conference-grants

10/14	National Endowment for the Arts	Dialogues on the Experience of War	The program supports the study and discussion of important humanities sources about war, in the belief that these sources can help U.S. military veterans and others to think more deeply about the issues raised by war and military service. The humanities sources can be drawn from history, philosophy, literature, and film—and they may and should be supplemented by testimonials from those who have served. The discussions are intended to promote serious exploration of important questions about the nature of duty, heroism, suffering, loyalty, and patriotism.	Up to \$100,000	https://www.neh.gov/grants/education/dialogues-the-experience-war	
10/15	NEA Foundation	Learning & Leadership Grants	The NEA Foundation provides grants to support public school teachers, public education support professionals, and/or faculty and staff in public institutions of higher education for one of the following two purposes: Grants to individuals fund participation in high-quality professional development experiences, such as summer institutes or action research; or grants to groups fund collegial study, including study groups, action research, lesson study, or mentoring experiences for faculty or staff new to an assignment.	\$2,000 for individuals, and \$5000 for groups engaged in collegial study	Must be a member of the NEA	http://www.neafoundation.org/pages/learning-leadership-grants/
10/16	NIH	Exploratory/Developmental Research Grant Program	The NIH Exploratory/Developmental Grant supports exploratory and developmental research projects by providing support for the early and conceptual stages of these projects. These studies may involve considerable risk but may lead to a breakthrough in a particular area, or to the development of novel techniques, agents, methodologies, models, or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.	Varies by project; does not exceed \$275,000	http://www.nlm.nih.gov/ep/GrantExDev.html	

10/18	National Science Foundation	Research on Emerging Technologies for Teaching and Learning (RETTL)	<p>To fund exploratory and synergistic research in emerging technologies (to include, but not limited to, artificial intelligence (AI), robotics, and immersive or augmenting technologies) for teaching and learning in the future. The program accepts proposals that focus on learning, teaching, or a combination of both. The scope of the program is broad, with special interest in diverse learner/educator populations, contexts, and content, including teaching and learning in science, technology, engineering, and mathematics (STEM) and in foundational areas that enable STEM (e.g., self-regulation, literacy, communication, collaboration, creativity, and socio-emotional skills). Research in this program should be informed by the convergence (synthesis) of multiple disciplines: e.g., learning sciences; discipline-based education research; computer and information science and engineering; design; and cognitive, behavioral, and social sciences. Within this broad scope, the program also encourages projects that investigate teaching and learning related to futuristic and highly technological work environments.</p>	up to a total of \$850,000	Estimated number of Awards:20	https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504984&org=NSF&sel_org=NSF&from=fund

of Health

E4A's mission is to support rigorously designed quantitative, qualitative, and mixed-methods research that yields convincing findings about the population health, well-being, and equity impacts of specific policies, programs and practices. The project primarily target research that directly tests the impacts of interventions on health outcomes. The Robert Wood Johnson Foundation is especially interested in research examining the health impacts of program or policy interventions that address factors outside the domain of health care services or public health practice. Studies funded by E4A must include measures of health outcomes or of behaviors or other factors that are well-established determinants of health. E4A proposals should be designed to answer a clearly articulated, testable research question. E4A does not fund the costs of program implementation or operations. Also, in line with E4A's focus on evaluating interventions, Robert Wood Foundation does not fund descriptive or exploratory science, literature reviews, needs assessments, or validation of screening tools.

Rolling Basis	Robert Wood Johnson Foundation	Pioneering Ideas: Exploring the Future to Build a Culture of Health	<p>Pioneering Ideas: Exploring the Future to Build a Culture of Health welcomes proposals that are primed to influence health equity in the future. They seek ideas that address any of RWJF's Pioneer team's four current areas of focus described below.</p> <ol style="list-style-type: none"> 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and 4) Future of Work. <p>Additionally, this call for proposals seeks ideas that might fall outside of these four focus areas but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. They are only interested in future-oriented ideas. If your proposal does not center on anticipating the next 5–15 years, it is not a fit for this funding opportunity.</p>	Unspecified-average \$315,031	Note: Grant periods are flexible, though generally range from 1 to 3 years	https://www.rwjf.org/en/library/funding-opportunities/2020/pioneering-ideas-2020-exploring-the-future-to-build-a-culture-of-health.html

The Gladys Krieble
Delmas Foundation

Research
Library
Program

The overall objective is to improve the ability of research libraries to serve the needs of scholarship in the humanities and the performing arts, and to help make their resources more widely accessible to scholars and the general public. Wherever possible, grants to libraries seek to promote cooperative cataloging projects, with an emphasis on access to archival, manuscript, and other unique sources; some elements of interpretation and exhibition; scholarly library publications; bibliographical and publishing projects of interest to research libraries; and preservation/conservation work and research. In general, awards are made for single-year, and not multi-year, projects.

Not specified.
Past grants were
awarded up to
\$25,000.
